

Established in 1917, the California Association of Collectors is a nonprofit mutual benefit corporation pledged to promote, stimulate, increase and improve the educational, social, economic, legislative and ethical welfare of the California collection industry and the public which it serves; and to apply the collective knowledge and experience of its members toward maintaining an ethical standard of collection service.

The organization has the power and expertise to resolve the issues that confront the industry. Our strength is in numbers and only with the combined efforts of all collection agencies can we be most effective.
